Topic schedule for this month...

Monthly Topic: Using your Mobile Devices

Week 1 – Are you smarter than a 5th grader?

Week 2 – No Presentation

Week 3 – Downloading and Installing Apps

Week 4 – Taking and Storing Pictures

Week 5 – Using your Voicemail

Highlight = Bring your mobile device!

Here are the photo apps we will be discussing today!

Google Photos

Time to Demonstrate!

Just a heads up…

- There are upcoming days where Logan will not be at Abbey Park. *NO presentations or tech help will be offered when Logan is not here.*

- **Presentation Days:**

- **Tech Help Days:**
- Monday, September 29th
- Monday, September 1st

Next Week: Using Voicemail

TECH HELP:

Monday – 2:30-5pm

Tuesday: 2:30-5pm

Remember the hours change!

How to Access Past Technology Presentations:

To make a more streamlined resource access system, I have decided to integrate the Abbey Park Presentations website with my central website.

1) Navigate to a web browser (Google, Edge, Firefox, etc.)
2) In the browser's search bar, type presentations.locktech.org

You should see this screen:

3) Click one of the buttons to access its associated *Tuesday Tech Teachings* resource.

Note: Presentations will be named by their month, week, and title. For example, Music Players is named "Month 1 Week 1 – Music Players".

4) Click the "Download" button to access the presentation. The presentation will be saved to your device.

You can also access other Abbey Park related resources, such as guides for the new computers, by clicking "Abbey Park Resources" in the main menu (at the top of your screen).

HARD COPIES OF PRESENTATIONS ARE IN THE WHITE FOLDER LABELED "TUESDAY TECH TEACHINGS" IN THE LIBRARY. The folder is on the shelf adjacent to the Computer Room wall.
